

Follow the original PDF links

This PDF contains clickable internal references and a website link.

PdfToEpub converter v0.2 should preserve these links in the converted EPUB.

[Read the linked section on source page 2](#)

[Read note 1 near the bottom of source page 2](#)

[Visit the PdfToEpub converter project website](#)

Use the contents menu to check the nested chapter outline.

If you export only this page, missing internal targets are reported.

The linked section

This paragraph is the destination of the first internal reference.

Text stays adjustable. Navigation points to a reconstructed block.

[Return to the reference on source page 1](#)

NOTE 1: Existing PDF links to notes are restored as ordinary links.

Popup notes are reader features; PdfToEpub converter does not infer them.

[Return from note 1 to the reference](#)

Links on a preserved slide

The landscape page is kept as an image in the EPUB.

Its website link remains available as a separate clickable entry.
